Kramar H.M. Notes and laboratory reports on “Lighting and Structural Materials”/ Part 1 “Structural materials” for students of field of study 6.050701 Electrical engineering and electrotechnology (full-time study bachelors) // H.M.Kramar, I.V.Koval. – Ternopil, TNTU, 2016. – 120 p.

Authors: **H.M. Kramar**
I.V.Koval

Reviewer: **L.H. Bodrova**

The notes and laboratory reports have been approved at the meeting of building mechanics department (minutes № 5 from 15 December 2015)

The notes and laboratory reports have been approved by the Mechanical Engineering Faculty methodological committee (minutes № 5 from 18 December 2015)

Contents

Labs Number		Pages
	Introduction	3
	Safety during lab activities	4
1	Mechanical properties	5
2.	Crystallization process	15
3.	Thermal analysis	23
4.	Iron-carbon alloys (steels, alloy steels and cast iron)	31
5.	Heat treatment of steel	50
6.	Aluminium, copper and their alloys	60
7.	Ceramics	76
8.	Polymers	89
	Glossary	99
	Appendixs	106
	Reference	115
